Certified Sexual Assault Nurse Examiner:

The Certified Sexual Assault Nurse Examiner must have equivalent qualifications, competence and function in the same role as employed individuals performing the same or similar services at the facility, as defined by facility job description.

Definition of Care or Service:

The Certified Sexual Assault Nurse Examiner serves as a non-employee member of the team by assisting the department director and staff. Scope of service may include:

- Explain/provide the following to the patient as needed:
 - Explain/obtain patient consent: release of protected health information and consent for the medical forensic exam
 - Explain/provide Patient Rights to:
 - i. Privacy and confidentiality
 - ii. Information regarding reporting versus non-reporting to law enforcement
 - iii. A victim advocate during the medical forensic exam
 - iv. Refusal of any or all of the medical forensic examination
 - Explain procedures and equipment, to include a plan of care
 - Explain the purpose of multidisciplinary team members
- Obtain health and forensic history, documenting thoroughly according to agency policy/protocol and standards of practice.
- Use appropriate equipment and techniques to perform a thorough patient-centered assessment, develop a nursing plan of care, provide medical treatment, and refer when appropriate according to policy/procedure and standards of practice.
- Use appropriate equipment and techniques to collect evidence (if indicated by history), document forensic procedure(s), and maintain chain of custody evidence accurately according to policy/procedure and standards of practice.
- Follow assessment guidelines and standardized procedures for age-specific and special populations; such as the adult, adolescent, elderly, pregnant, or vulnerable/special needs patient.
- Perform a psychosocial assessment, to include:
 - Crisis intervention
 - Safety assessment and planning
 - Referrals
- Use a culturally competent approach to meet the individual needs of the patient.
- Provide appropriate medication administration, discharge instructions, and health care referrals according to policy/procedure and standards of practice
- Use proper techniques to perform forensic photography according to policy/procedure and standards of practice.
- Participate in professional activities to continually improve practice, including but not limited to chart review, peer review, on-going education, supervision, and mentoring to prepare the nurse for the SANE
