Getting Started with Slido

What is Slido?

Slido is an HCA Healthcare-approved third-party application that can be used to increase learner engagement during in-person and virtual educational activities.

Steps to Create a Slido Account

1. Go to Slido.com.
2. Click the “Sign Up” button in the upper right corner.
3. Click “Sign Up with Webex”. This ensures you have access to HCA Healthcare's enterprise-wide Slido account.
4. Enter your HCA Healthcare work email address.
5. Click “Sign In”.

Next Step: Download the Slido Integration for PowerPoint.

Steps to Download the Slido Integration for PowerPoint

1. Log into your Slido Account at Slido.com.
2. Click on “PowerPoint” on the left side of the screen under Integrations.
3. Click the download button and follow the prompts on the screen.
4. Open PowerPoint. You should see a Slido icon on the Home tab.

Helpful Hints

- The Slido integration is not supported in the web-based version of PowerPoint. To use Slido, open the presentation in the desktop PowerPoint application.
- Ensure you have access to the Slido event associated with the session you plan to present:
  - Open the PowerPoint presentation and verify that you have access to the embedded Slido event.
  - If you do not have access, request access by clicking the link.
  - Access must be granted by the event administrator, so verify your permissions before the day of your class.
- Ensure PowerPoint is fully updated.
- Clear any previous Slido interactions before starting a new presentation.
- If you are presenting in Webex, consider embedding Slido directly into the meeting. This allows participants signed in to Webex to respond to Slido questions without leaving the meeting environment.
