**Updated Fields**

### Surgical Counts

Labs have been added to all surgical counts in the Intraoperative Phase documentation.

Checklist						
Procedure						
Was the admit history and assessment reviewed	Yes	No				
Were changes to admit history and/or assessment noted	Yes	No				
Document noted changes to history/assessment						
H and P completed within last 30 days and available	Yes	No				
H and P updated, completed and available	Yes	No				
Allergies noted, confirmed, documented	Yes	No				
Consents complete, valid and available	Procedure(s)	Anesthesia	Blood	Blood Refusal	Other	
Other consents complete, valid and available						
Consent comment						
LMP						
Urinary catheter present on arrival to OR	Yes	No				
Urine characteristics	Anuric	Cherry	Pink			
	Black	Cloudy	Sediment			
	Blood clots	Dark amber	White			
	Blood streaked	Green	Yellow			
	Blue	Malodorous	Other			
	Brown	Orange				
Other urine characteristics						
Procedural items are available for case	Relevant Images	Blood Products	Implants	Special Devices	Special Equipment	Other
Other procedural items are available for case						
FHR in OR	Comment:					
NPO Status						
Position and Devices						

### OB Intraoperative Checklist

Fetal Heart Rate (FHR) is available in the Checklist for OB Procedures.

# Expanse TIP SHEET

## OR Site Prep Solution Options Update

An update to the group responses for the Prep solution field will be made to **remove** iodine povacrylex alcohol (also known as Duraprep) and **add** ‘povidone-iodine plus isopropyl alcohol’ (also known as PurPrep) and ‘Nonantimicrobial Soap’.

The following documentation fields with either ‘Prep solution’, ‘Home Prep solution’, or ‘Pre-op solution’ query will be updated:

- OB OR Prep/Brefing
- OB OR Intraoperative
- Proc/Prep/Timeout
- Pre-Procedure Checklist +
- Pre-op Prep Documentation
- Intraop ECT
- Intraop General
- Intraop Organ Transplant
- Prep Screen +

Assessments
