Once the Nurse enters into the order, they will land in the **Current Rate** field.

The most recent Anti-Xa Result, Date, and Time will automatically display and cannot be edited

Nurse will:
Document the **Current Rate** in units/kg/hr
Document the **New Rate** in units/kg/hr

NOTE: If no change (therapeutic), document same rate in both fields.

ROOM COLORS

ER01 → PRE ER
 ER02 → REG ER
 ER03 → ADM IN
 ER04 → ADM INo
 ER05 → DEP ER

PT NAME

Name, A → Similar name alert (the first 3 letters of last name match)

AGE AND GENDER

44 → Male
 44 → Female

PRIORITY

1 → Priority 1
 2 → Priority 2
 3 → Priority 3
 4 → Priority 4
 5 → Priority 5

TIME IN STATUS (TIS)

00:45 → After 45 min in the same status event
 01:00 → After 1 hr in the same status event

LENGTH OF STAY (LOS)

02:20 → After 2 hour and 20 min
 04:00 → After 4 hours

NURSE NAME

Nurse → Red until preferred pharmacy is documented

ED PHYSICIAN NAME

ERDOC → Patient has been greeted and MSE initiated (used by ED providers)
 ER, Reg → Patient has been registered prior to being greeted by ED provider (used by Registration)

READY INDICATOR

READY → All labs and diagnostic studies have been resulted
 *** Falls off when Admission order is entered **

MEDICATION INDICATORS

MED → Ordered
 MED → Overdue (more than 15 min since the order was entered)

REASSESSMENT INDICATOR

DUE → At least one reassessment is due or overdue based on pt's priority level.

| Priority Level | Frequency (min) |
|----------------|-----------------|
| 1 | 30 |
| 2 | 60 |
| 3 | 120 |
| 4 | 240 |
| 5 | 240 |

EKG INDICATOR

EKG → Ordered
 EKG → EKG treatment documented by the nurse

LAB INDICATORS (any order in LAB category)

LAB → Ordered
 LAB → Specimen Received by Lab
 LAB → Partial results available
 LAB → Fully resulted

IMAGING INDICATOR (RAD, CT, MRI, US, VL, NM)

IMG → Ordered
 IMG → In progress
 IMG → Completed and resulted

CARDIAC MONITORING INDICATOR

M → Ordered
 M → Treatment documented by the nurse
